PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in software development, system design, and technical project leadership. Experienced in building applications, translating requirements into system solutions, and working with Java, Spring Boot, SQL, and REST APIs. Strong foundation in AI-assisted development, cloud-native applications, and cloud technologies.

PROFESSIONAL EXPERIENCE

DEPARTMENT OF INFORMATION AND COMMUNICATION TECHNOLOGY

Jun 2025 – Jul 2025

Cybersecurity Intern

- Monitored connectivity across a network of 800+ DICT Free Wi-Fi for All routers in Camarines Sur using multiple web-based monitoring tools, documenting downtime and connectivity issues for incident tracking.
- Resolved client issues with eGov services and online government applications, providing step-by-step guidance for digital processes, appointments, and applications.

SUTHERLAND GLOBAL SERVICES

Dec 2025 – Jul 2026

Customer Service Associate

- Resolved customer issues by analyzing information across multiple web-based applications, troubleshooting booking and technical problems, and documenting solutions for efficient issue resolution.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

Aug 2022 – Jun 2026

Partido State University | GPA: 1.54

President's Lister (2022 – 2023) | Dean's Lister (2024 – 2026)

SKILLS

- Languages:** C++, Java, PHP, JavaScript, TypeScript, Python
- Frontend:** HTML, CSS, SCSS, React, Tailwind CSS
- Backend:** RESTful APIs, Spring Boot, Hibernate, Spring Security, JPA/Hibernate, Maven
- Databases:** MySQL, Supabase, PostgreSQL
- Tools:** Jekyll, Liquid, GitHub Pages, Git, GitHub, Figma, Vercel, Railway, Google Cloud, Claude, ChatGPT, Gemini

PROJECTS

FILMSCOREPH (Initial Deployment: <https://filmscoreph-frontend.vercel.app>)

- Developed a full-stack Filipino film rating and review platform using React, Java, Spring Boot, Bootstrap, MySQL, and REST APIs, providing users with a centralized platform for discovering, rating, and reviewing films.
- Implemented movie search and filtering, sortable data tables, CRUD operations, user blocking, user assistant chat, and administrative activity audit logging.
- Secured the application using JWT authentication, Google OAuth 2.0, role-based access control, and protected API endpoints.

NUTRIML: MALNUTRITION PREDICTION SYSTEM (Thesis Project)

- Led a four-member team in developing NutriML, a web-based prediction system for community-level child malnutrition utilizing a hybrid LSTM-XGBoost algorithm, defining project scope, features, and technical direction.
- Designed the system architecture, core modules, workflows, and user roles, and oversaw usability and functionality testing to validate system requirements and user experience.
- Managed the Agile SDLC and project documentation, including project timelines, system diagrams, requirements, technical documentation, and user manuals.

ACHIEVEMENTS & CERTIFICATION

ICT PROFICIENCY DIAGNOSTIC EXAMINATION | Department of Information and Communications Technology | Sep 2025

GOOGLE CLOUD DIGITAL LEADER | Google Cloud | Aug 2026
